

The MMA/LA is supplied as a remote conversion kit for mounting away from the fitting. It is suitable for 230V DC Loads.

- Conversion Kit for Mains Voltage Lamps
- Deep Discharge Protection
- Entire Unit Housed Inside One Enclosure
- High Capacity VRLA Batteries
- Converts Loads Up To 40W

A 3 hour remote conversion kit for 230V DC loads. This pack will power the load at 100% (BLF*) for three hours in emergency.

There are two versions available, one will power up to 25W and the other will power up to 40W.

* BLF = Ballast Lumen Factor/the percentage output in emergency
